Communication and the eyes closed
You keep your questions and I pull the rope
If I need it, if I ever should need it

'Cause I've been out almost every night
I need some sleep, I need a place to hide
And recover, I'm needed no other

Nice to fit in, oh, we will be nice to fit in
Because I'm living on the outside of it all, of it all

Gotta stay out of the ice cold
Warm shower and a pack of clothes
And it's nothing, you know that it's nothing

Isolation in the neighborhood
Storm storming on a piece of wood
You need something, you know that it's something

Nice to fit in, oh, we will be nice to fit in
Because I'm living on the outside of it all, of it all
Nice to fit in, oh, we will be nice to fit in
Because I'm living on the outside of it all, of it all

Just been a very long time
It's a very long time, hey
Oh, and I really don't mind
If you stop it ten times to say

That you were feeling so bad
Think you're so bad, that's great
Oh, it's been a very long time
It's a very long time, hey you waited here

Nice to fit in, oh, we will be nice to fit in
Because I'm living on the outside of it all, of it all
Nice to fit in, oh, we will be nice to fit in
Because I'm living on the outside of it all, of it all, of it
all
