Open up and see me
I've been knocking at your door
Toronto wind is cold
I'm lonely, say hello

You are on the inside
Your apartment, it is warm
Fleetwood Mac is on
I talk and then I'm gone

O, I need all of the love in your heart
O, I see all of the trouble I start

You live on the east coast now
And I live on the west
Stopped in town again
I'm drinking with old friends

So good to see ya,
How things goin?
How ya been?
Start all over again
I'll see ya till the end

O, I need all of the love in your heart
O, I see all of the trouble I start
O, I miss you all those days we're apart
O, I need all of the love in your heart

Open up and see me
I've been knocking at your door
Chicago rain is cold

O, I need all of the love in your heart
O, I see all of the trouble I start
O, I miss you all those days we're apart
O, I need all of the love in your heart
O, I need all of the love in your heart
