I've got my share of scars on those ol' monkey bars  
Every time I'd hit the ground  
On that old long dirt my bike lost control  
And once again I was fallin' down  
Every time I'd try to fly, there's a force I can't deny  
Gravity

Grew to be six foot one, depended on no one  
Yeah, I was my ol' man  
Invincible and strong until you came along  
And touched me with your gentle hand  
When I look into your eyes, there's a force I can't deny  
Gravity

Well, I never really like it much  
Always left me all scraped up  
Never really saw it as a good thing  
Changes tides out on the sea  
Pulled your body close to me  
First time I ain't been afraid to fall  
Don't guess it's so bad after all  
Gravity

Well, I never really like it much  
Always left me all scraped up  
Never really saw it as a good thing  
Changes tides out on the sea  
Pulled your body close to me  
First time I ain't been afraid to fall  
Don't guess it's so bad after all  
Gravity

Gravity  
Mmmmmm, gravity
