America

Josh Turner

Some has said down through history if you last it is a
mystery

But I guess they don't what they are talking about
From the mountains down thru the sea you have
become such a habit with me

America America

Well I come from, down around Tennessee but the
people in California was

Nice to me

America

It don't matter where I may roam to tell you people it is
Home Sweet Home

America America

And my brothers all black and white, yellow to and the
redman is right to

Except a little from you

Promises then following through America

And the men who fell on the plains and live through
hardship and pain

America America

And the men who could not fight in a war that didn't
seem right and you let

Them come home America

And my brothers all black and white and yellow to and
the redman is right

To except a little from you

Promises then following through America

Well I come from down around Tennessee but the
people in California are

Nice to me

America

It don't matter where I may roam to tell you people that
it is Home Sweet

Home America America America

It is Home Sweet Home America America America
