There's a bunch of good women in this big old world

But when I've met you I've found the perfect girl

But it ain't easy, being your man

Dealing with these feelings, I do the best I can

~Cause I can't eat and I can't sleep

~Cause I can't believe how you're loving me

It's a fulltime job but I'm alright with that

Loving you, that's a good problem to have

Been saving up for a big screen TV

But I'll spend it all on a wedding ring

I'm gonna lose my freedom, we'll walk down the aisle

But I'll be free to love you and get lost in your smile

But I can't eat and I can't sleep

~Cause I can't believe how you're loving me

It's a fulltime job but I'm alright with that

Loving you, that's a good problem to have (Sure is)

You know I can't eat, I can't get no sleep

I can hardly believe how you're loving me

It's a fulltime job, I'm alright with that

Loving you, that's a good problem to have

Girl, loving you, that's a good problem to have
