You talk about your feelings
Sometimes I keep mine to myself
But that doesn't mean you're foolish
And you know I don't want anybody else
And you can say "I love you."
Just like "hello" and "goodbye"
Well, I don't say it very often
But you know I'll love you till the day I die

Chorus

That's just the difference
Between a Woman and a man
Thanks God for that difference
When we both understand
A woman and Man

I turn on like a light bulbe
You warm up like an iron
And you might a little longer
But you're into it just as strong as I am

Repeat Chorus

A woman and a man
A woman and a man
