I can't fall asleep she says  
So sing to me.  
All about the things you're all about  
And let me hear  
'Cause here and now is all we have  
She cries and outside it starts raining

She says and I don't know why I have to try  
To keep myself from dreaming  
Something silent and insane  
Keeps reminding me  
That people don't change

It's just a matter of time  
Before we find it won't work out  
And I don't mind, but just this once  
I'd like to know ahead of time  
It seems like times keep passing me by  
And I'm just here to pass the time  
Not knowing what I'll find  
And I don't like not knowing  
No, not knowing half the time  
So I'll just save some time and say goodbye

She says and I don't know why  
It seems to fly  
And leave me here still waiting  
For that moment, for a sign  
For an omen  
A break in the rain.

I just never thought it'd ever  
Happen to me  
It seems too hard to believe  
That it'd be this easy  
I just hope you understand  
That I don't think I can  
And he say's, "Try."

She says and I don't know why  
I have to try

To keep myself from dreaming  
Something silent and insane  
She stops crying  
But outside it keeps raining

She says and I don't know why  
It seems to fly  
And leave me here still waiting  
For something silent and insane  
To keep reminding me  
That people don't change
