Some girls they want a Mr sensitive
Some girls they want a Mr funny man
But you
You just want a personal slave
Can't get a hug or a simple kiss
Unless he gets you another gift
And all the while he's been blinded with beauty

It seams
Your so carefree
But don't forget that what you saw is what u read
So when ur heart gets broken in two
You will know how I felt when I fell for you yea

Deep down I know it's really inside of you
You think the world revolves around you
Well guess what
Got news
Get a grip
Coz it's not going to work on me
Deep down I know you think your invincible
You got beauty but only where it's visible
Well guess what
Got news
Get a grip
Coz it's not going to work on me

They say the look upon your pretty face
And that's all that it ever seams to take
But I could really see that beauty is the beast
So now I leave you this predicament
Keep out of what u think is innocent
Or you will find your self with nothing to lose

It seams
Your so carefree
But don't forget that what you saw is what u read
So when ur heart gets broken in two

You will know how I felt when I fell for you yea

Deep down I know it's really inside of you

You think the world revolves around you
Well guess what
Got news
Get a grip
Coz it's not going to work on me
Deep down I know you think your invincible
You got beauty but only where it's visible
Well guess what
Got news
Get a grip
Coz it's not going to work on me

I know you look into the mirror
Why can't u see
Right through ur fake exterior
It blinded me
But things arnt always as they appear
Appear to be, but
I'm glad my visions much clearer now

So when ur heart gets broken in two
You will know how I felt when I fell for you yea

Deep down I know it's really inside of you
You think the world revolves around you
Well guess what
Got news
Get a grip
Coz it's not going to work on me
And deep down I know you think your invincible
You got beauty but only where it's visible
Well guess what
Got news
Get a grip
It's not going to work no
It's not going to work no
It's not going to work on me ohh oh oh on me
