You make it hard to breathe, with every step you take
closer to me
I'm cold with every touch, and I can't fall asleep
I can't stand to be without you, now that you've figured
out just who I am
And I can't stand to look into your eyes, now that I've
realized

That you make me weak, you make me love,
You make me wanna scream your name at the top of
my lungs
You make me shake, you rescue me,
But most of all, you make me complete

I'm drawing pictures in your hand,
Being away from you is something I can't stand
I feel your breath upon my cheek,
And you're my everything, and my heart is yours to
keep

Well I don't have the strength to stay away,
Because I'm falling more in love with you, each and
every day
I can't stand to not be by your side, now that I realize

That you make me weak, you make me love,
You make me wanna scream your name at the top of
my lungs
You make me shake, you rescue me,
But most of all, you make me complete

You make me weak, you make me love
You know I'll stay with you forever, but that's not
enough

That you make me weak, you make me love,
You make me wanna scream your name at the top of
my lungs
You make me shake, you rescue me,
But most of all, you make me complete

You make me complete
