Sing it- Josh Wilson

All the words in all the world could never say enough  
All the notes in my in my guitar could never say enough

But you placed this song inside my heart and all I know  
to do for you is sing it  
No its not much but its what I've got and all I know to do  
for you is sing it

I have tried so hard to find the perfect melody  
Nothing I could ever write comes close to your glory

But you placed this song inside my heart and all I know  
to do for you is sing it  
No its not much but its what I've got and all I know to do  
for you is sing it

ahhhhh
