Some people think that how they look
Is what gets them through the day
Others think it's what they do or say
One guy believes that his shirt and tie
Is how he gets his friends to care
But even his three peice suit
Ain't gonna get him anywhere
Everyone's got something to believe in
I'm not gonna be the one to tell you if it's right or wrong
But I will say that what's in your heart is what you were
given
And you don't have to be anyone but yourself to belong
I believe in love (4x)
I know that I wasn't made to be the best looking guy
around
I won't be winning any trophies or wearing any crowns
But I believe in love, I believe that someone cares
No matter how I look or what I wear
Everyone's got something to believe in
I'm not gonna be the one to tell you if it's right or wrong
But I will say that what's in your heart is what you were
given
And you don't have to be anyone but yourself to belong
I believe in love (4x)
