Didn't anybody ever tell you
that you're made of stars?
Didn't anybody ever tell you
how wonderful you are?
Didn't anybody ever look into your eyes
and see the whole world
spinnin' around, spinnin' around?
Strange days we're living in.
Sometimes it seem the signal's getting low
keep picking up waves of love
on your human radio.
Wild angel, don't you think
it's time now?
Wild angel, don't you think
it's time now?
Don't you think its time now
to love yourself?
Didn't anybody ever tell you
that you're made of space?
Didn't anybody ever tell you
that you're filled with grace?
Didn't anybody ever "sing" in your ear
the sweet sounding song of yourself,
song of yourself?
Strange days we're living in.
Sometimes it seem the signal's getting low
keep picking up waves of love
on your human radio.
Wild angel, don't you think
it's time now?
Wild angel, don't you think
it's time now?
Don't you think its time now
to love yourself?
