One more hour
'Til the sun goes down and the moon's over heaven
Got ten years now
But counting down all I want is eleven
Any day now
This is how it started
Any day now
Turn around,
At the edge of town, heart beats with the freedom
I've got one more year
'Til I'm far from here, don't know how to leave 'em
Any day now
I will find my way out
Any day now
Any day
Any day
Well now I'm always looking for a way
Any day
Any day
Any day
Now I'm always trying to find my way back in
