"Where You Belong"

Well I'm down in London Town
And I've left the greener grass
And I need someone to tell me that this won't last
And I need you more tonight
Cause the rains won't wash away
All the bad things I've done since you left that day

Oh oh oh, I can't seem to let you go
Hey hey hey, what can I do to make you stay?
Cause I need you
Right back here
Where you belong

Sometimes I dream
And sometimes I cry
But I do both so well when you're by my side

Oh oh oh, I can't seem to let you go
Hey hey hey, what can I do to make you stay?
Cause I need you
Right back here
Where you belong

I've been chasing glory
But it's been so hard to find
It's the same old story, I got one thing on my mind
It's you

Oh oh oh, I can't seem to let you go
Hey hey hey, what can I do to make you stay?
Cause I need you
Right back here
Yes I need you
Right back here
Where you belong
