Mmmm...Hey
Hey, hey
Backdoor lover
OOOh..

This kind of love is wrong
but you know it feels so right
Runnin' my hands across your cheeks
they're oh so smooth and white
so leave the light on baby
and unlock your back door
i'll be comin' through that way tonight
to love you for sure

Lyin' on your bed starin' up at the moon
you got me crazy
but i'll love you soon

i'm your back door lover
comin' from behind
with the lights down low
back door lover
just you and me
no one has to know
lemme meet you there at your secret spot
i'll show you a love thats
more than hot

You know that i wont hurt you
so open up and let me in
we love eachother way to much
for it to be a sin
some people use the front door
but that's never been my way
just cuz i slip in back doors,
well, that doesn't make me, hey!

lyin' on your bed starin' up at the moon
you got me crazy
but i'll love you soon

i'm your back door lover

comin' from behind
with the lights down low
back door lover
just you and me
no one has to know
back door lover
lemme meet you there at your secret spot
i'll show you a love thats
more than hot

baby, i'm goin' round in circles
cuz you're everything
and you know what i want to do
maybe we can get together at your place tonight
so open your back door tonight

backdoor lover
comin' from behind
with the lights down low
back door lover
just you and me
no one has to know
lemme meet you there at your secret spot
i'll show you a love that's
more than hot

back door love
you know i want it only
back door love
oh.....

back door love
you know i want it only
love
oh.....

back door lover
comin' from behind
with the lights down low
back door lover
just you and me
no one has to know
back door lover
lemme meet you there at your secret spot
i'll show you a love thats
more than hot
more than hot
