This is the place where I sit
this is the part where i love you to mcuh
is this as hard as it gets?
cuz i'm getting tired pretending i'm tough
and here if you want,
and yours you can hold me
I'm empty and taken
and dumb but i'm blaking

chorus: you don't see me
and you don't need me
and you don't love me
the way i wish you would
the way i know you could

i dreamed a world were you understand
that i dream a million sleepless nights
well i dream of fire when your rouching my hand
but it twists into smoke when i turn on the lights
i'm switchless and faded
its to complicated
is this how the book ends?
nothing but good friends?

to chorus

The way i wish you would

This is the place in my heart
this is the place where i'm falling apart
isn't this just where we met?
and is this the last chance that i'll ever get?
i wish i was wronging
instead of just dawning
crystal and see through
and not enough to you

to chorus x2
