They say time waits for no man  
And neither does this woman  
I've been trying hard to understand  
Would it be?

Many moons have come and gone  
And this little heart's still holding on  
To what could be, maybe should be, baby  
Crazy is all it's making me

I've been holding on for way too long  
It can't go on

You've got 4 and 20 hours  
Just one day to prove to me  
That your love has got the power  
Make me believe

You'll take me where I wanna be  
4 and 20 hours  
And that's me, hmm, baby  
That's me, yes

They say Rome wasn't built in a day  
But, hey, they've got nothing  
On the patience  
That it's taking me to wait

See the sands of the hourglass  
Are slipping through your hands  
Every grain has got to hurt you  
Takes you further from your chance

I've been holding on for way too long  
(It's been too long)  
Either you're in or you're out

You've got 4 and 20 hours  
(24 hours, one day)  
Just one day to prove to me  
That your love has got the power  
(Show me)

Make me believe  
You'll take me where I wanna be  
4 and 20 hours  
And that's me

See everyday I  
I walk out of my front door  
And I've been wishing and hoping  
That today is the day

That you're gonna  
You gonna smile in front of my face  
And tell me something  
Something worth talking about

Tell me that you love me  
Tell me you gonna be a man  
Show off for me, baby

You got one day  
I will give you 24 hours, baby  
That's all you should need  
Ooh

24 hours should be  
Should be enough for you, love  
Just make me believe  
(Take me where I wanna be)

Make me believe  
That you're the man for me, baby  
Ooh, yeah

I gotta believe you, baby  
I'm gonna need more than flowers  
Honey, child, more than talk  
I'm telling you, 4 and 20 hours

4 and 20 hours  
It should be more than enough for you
