I'm your flower child
Born [in] '87
I've been growing wild
Home grown in heaven
I found my summer and
You wash away the pain
I'm your flower child
I'll keep you guessing

Hold me, keep me breathing
We were meant to be as one again
It's clear that we are rising
I'll be the moon to your sun
I'll be your flower child

You're my soul mate
Within a vision
You dream up a new world
In a lotus position

Nothing else praises you
Because we rock on through
You're my soul mate
Perfect collision

Hold me, keep me breathing
We were meant to be as one
It's clear that we are rising
I'll be the moon to your sun
I'll be your flower child, yeah
I'll be your flower child

Young and free living for love alone
It's time to lead
The world will see us grow, alright now
Colors all in beauty we can't control
Mother nature's music makes us whole
Hold me, keep me breathing
We were meant to be as one
It's clear that we are rising
I'll be the moon to your sun
I'll be your flower child

I'll be your flower child

Sweet sensation

Your cool vibration

I'll be your flower child
