I wake with the morning light
Makin' love all through the night
Was I dreaming
Lyn' there I watch you sleep
One kiss before I leave, what you've done to me
I'm gonna tell the world... yeah

Chorus:

I got a reason to feel alive
You put the smile on my face
There'll be no more lonely nights in this town
Oh no... no... 'cause I got a reason

I used to be a restless soul
All the dreams I could not hold
I was searchin'...
I reached out and you were there
I never though someone would care
The way you do...
You got me shakin' now girl

I got a reason to feel alive
You put the smile on my face
There'll be no more lonely nights in this town
Oh no... no... 'cause I got a reason
Oh no... no...

I want your love... want you to stay... oh yeah
You know you got me night and day
Every day...

I got a reason to feel alive
You put the smile on my face
There'll be no more lonely nights in this town
Oh no... no... 'cause I got a reason... yes I do
Oh no... no... 'cause I got a reason... yeah

Now I got a reason... yeah
