From the first day
I envisioned myself with you
It's so hard to wait
But with you it was easy to do

Somewhere in time
I knew I would find you here
With every passing moment
Well I see forever so clear

(Ah ah)
Part of me was lost without you
(Ah ah ah)
You are where I found my faith
(Ah ah ah)
Feels like love is here
To stay, babe

When I look in your eyes baby
I see a lifetime of dreams come true
And I want you to say
That you feel the same way too
The stars in your eyes tell me
All my tomorrows will wait for you
You're all of my prayers' answers
My one saving grace is you

In another life
I believed that I loved you then
If lightning strikes twice
We are destined together again

(Ah ah)
We don't have to make a promise
(Ah ah ah)
We were always meant to be
(Ah ah ah)
It's written in the way you look
At me, I see

When I look in your eyes baby
I see a lifetime of dreams come true

And I want you to say
That you feel the same way too
The stars in your eyes tell me
All my tomorrows will wait for you
You're all of my prayers' answers
My one saving grace is you

Love moves at the speed of light
Takes years to get it right
But we've got till the end of
Time

I can see, I can see
You and me, forever
You're the one woman that can make me stay
My one and only saving grace

When I look in your eyes baby
I see a lifetime of dreams come true
And I want you to say
That you feel the same way too
The stars in your eyes tell me
All my tomorrows will wait for you
You're all of my prayers' answers
My one saving grace is you

Oh I can see, I can see
You and me, forever
Oh I can see, I can see
You and me, forever
