Sitting in the corner of a room, thinkin' of you  
Wonderin' what you're doing now we're apart  
No use cryin', tears can't reach you now  
Memories, fulfilling dreams

You used to be so good to me, yeah  
I can't live without you  
I'd like to be, yeah, in your fantasy, baby  
Part of you is me

Walking across the clouds, hope I see you there  
Be it day or nighttime, I don't really care  
Hope you see me too, before I meet my end  
Somethin' stole your life away, I know I can't pretend

You used to be so good to me, baby  
I can't live without you  
I'd like to be in your fantasy, baby  
Part of you is me
