I'm inside the lizard i'm living my hell  
A pragmatic life under your spell  
Gotta have my kicks i can't stop  
I'm ready to detonate

Open up  
I can take it  
Godzilla is coming thru

Fuck your lies i'm proud to live my hell  
Feels good to be psychotic every fucking day  
I'm sorry but i don't have any limits  
Now i have no brakes and you can't stop me

Open up  
I can take it  
Godzilla is coming thru

I have been forgotten too many times  
Denied  
Crushed by your lies  
I'm in this to run you over  
Come on lets all drown in your lies  
I have been forgotten too many times  
Denied  
Crushed by your lies  
I'm in this to run you over  
Now i'm riding the lizard and you can't stop me

Open up  
I can take it  
Godzilla is coming thru

I have been forgotten too many times  
Denied  
Crushed by your lies  
I'm in this to run you over  
Now i'm riding the lizard and you can't stop me
