There's so many things to say right now  
I got so much on my mind  
Look at what is going down  
How much higher can we climb  
The system that we're living in  
Depends on poverty and greed  
But people don't need charity  
It's justice that we need

Pre-Chorus:

There's disrepair  
It's surrounding you  
And it's worse than it's ever been  
We'll overcome  
Overcome the things they do  
We're halfway there  
Cause we know the truth  
But living is another thing  
We'll overcome  
Overcome the things they do  
Lift your voice and sing

Chorus:

A change is coming our way  
Step by step and day by day  
We'll live by all that we say  
Step by step now come what may

There's war all around the world  
In the name of democracy  
Can't tell the rouge from the just  
When they bring hypocrisy  
I see my sisters on the move  
Making sure we all contend  
Must've lost something on the way  
We reduced ourselves again

Pre-Chorus

Chorus

Rap:

Before we go forth  
We gotta take 'em back, back  
So we can know what we did  
Cause if we never know what happened in de past  
Then we can never know, that's what it is  
If we don't do it for us  
We gotta do it for our kids, kids  
So they don't gotta relive  
See, there's so much happening, it ain't gonna get fix  
With singing and rapping and we gotta take action  
And turn that preach into practising  
Cause what happen back then, will be right back again  
But each one teach one, cause we only as fast  
As the last one stragglin, so help 'em out

Bridge:

Step by step day by day  
Said it won't be long, it won't be long  
Step by step come what may  
I feel it coming on strong  
Step by step day by day  
We gonna overcome  
Step by step come what may  
As long as we are one

Chorus

Can't tell the rogue from the just
