

## Joy Electric "Strawberry Heart"

Visit "[Strawberry Heart](#)" on MotoLyrics.com

My love my love are words you used to say  
Before the days the light  
went dark in you  
When I look back our whole lives  
disappear I'm longing for the way it used to be

### CHORUS

Strawberry heart  
hold my hand before  
we fall apart  
strawberry heart

kiss me once before  
our love departs

We used to be lost in each others eyes  
And everyday seemed like a  
new suprise  
Why can't it be like yesterday one more  
time  
For all the years I give my life to you
