Joy Enriquez
"Shake Up The Party"

I can see there's a lot of your mind
And boy, you haven't take me out for some time
You're workin' so hard in the day
But the night's still young
I'll grab my red dress, come on
Let's have some fun

I don't want nobody else but you
So let me pull you close
And let me love you through and through
Come on and rendezvous
'Cause I don't want nobody else but you
It's time to get away and have a tete-a-tete for two

Shake, shake, shake, shake your body
Come on, let's have a party
Break out the congas and play 'em loud
Shake up, shake up the party
Come on boy, we don't need nobody
Together, I know we'll tear up the town

I really don't care is people think we're strange
Come on grab my hand, let's go running in the rain
I can see the stars' reflection in your eyes
So move your body close we'll merengue through the
night
I can see the stars' reflection in your eyes
So move your body close we'll merengue through the
night

Shake, shake, shake, shake your body
Come on, let's have a party
Break out the congas and play 'em loud
Shake up, shake up the party
Come on boy, we don't need nobody
Together, I know we'll tear up the town

When I'm holding you close
And I'm tasting your kiss
I just throw all my reason away
And when I look at you I can't believe
That you're mine

When we dance under the stars
My head is spinning around the world
(Come on, come on baby, let's live it up)

I don't want nobody else but you
So let me pull you close
And let me love you through and through
Come on and rendezvous
'Cause I don't want nobody else but you
It's time to get away and have a tete-a-tete for two

Shake, shake, shake, shake your body
Come on, let's have a party
Break out the congas and play 'em loud
Shake up, shake up the party
Come on boy, we don't need nobody
Together, I know we'll tear up the town
