All alone in an empty bed
Underneath fluorescent lights
All the pain rushing to my head
Cutting off my pulse tonight
Suddenly the road is closing in
I can't see anything
I'm blacking out, I'm barely breathing

It's an emergency, baby come rescue me
The rhythm of my heartbeat's breaking down
It's an emergency, baby drop everything
The rhythm of my heartbeat's breaking down
Want you here now, now, now, now, now...
Want you here now, now, now, now, now...
Want you here now, now, now, now, now...
Want you here now, now, now, now, now...

When I told you I was fine
All the tears running down my face
Ohhh baby, baby was a lie
I should've never ever pushed you away
Cause I'm in critical condition
and your love is all I need
Without you here, boy it's killing me

It's an emergency, baby come rescue me
The rhythm of my heartbeat's breaking down
It's an emergency, baby drop everything
The rhythm of my heartbeat's breaking down
Want you here now, now, now, now, now...
Want you here now, now, now, now, now...
Want you here now, now, now, now, now...
Want you here now, now, now, now, now...

I'm fading fast and you're the one I'm calling

I'm crying out cause baby do you do you know
You're my heartbeat, you're my energy,
Gotta come running before its too late...

It's an emergency, baby come rescue me
The rhythm of my heartbeat's breaking down
It's an emergency, baby drop everything
The rhythm of my heartbeat's breaking down
Want you here now, now, now, now, now...
Want you here now, now, now, now, now...
Want you here now, now, now, now, now...
Want you here now, now, now, now, now...

It's an emergency, baby come rescue me
The rhythm of my heartbeat's breaking down
It's an emergency, baby drop everything
The rhythm of my heartbeat's breaking down
Want you here now, now, now, now, now...
Want you here now, now, now, now, now...
Want you here now, now, now, now, now...
Want you here now, now, now, now, now...

Want you here now...
