"Up Means Down"

Visit "[Up Means Down](#)" on MotoLyrics.com

I belong to dreams and stories in my mind
All the wonder I see, colors outside the light
I believe in the things I can't see

I don't wanna grow up
Because I still may believe
I don't wanna grow up
Because up means down to me

I play pretending build my perfect backyard dreams
A little house in the sky in between the trees
Neither caring the world

I don't wanna grow up
Because I still may believe
I don't wanna grow up
Because up means down to me

I see the world, I see the world
with wide eyes, wide eyes
I see the world, I see the world
with wide eyes, wide eyes

Lost in my little world I fly from the highest swing

I don't wanna grow up
Because I still may believe
I don't wanna grow up
Because up means down to me
I don't wanna grow up
Because up means down to me
