Lying naked in the sun making eyes at everyone,  
you're the one  
Later on you'll stand alone, below an empty moon  
With an empty heart and your empty hands

And the flowers and the trees all laugh when you walk  
by  
And the neighbors' kids run and hide  
If they only knew you were really one of them, but  
you're not

You're the one (one, one, one, one, one)  
The one (one, one, one, one, one)  
The one (one, one, one, one, one)  
The one

The one (one, one, one, one, one)  
The one (one, one, one, one, one)  
The one (one, one, one, one, one)  
The one (one, one, one, one, one)  
The one

Could it be we're alone and the moon was full of gold  
Your heart was filled with blood and the sun was in your  
hands  
The sun that burned you then, now warms your empty  
heart  
People come and go

But you're the one (one, one, one, one, one)  
The one (one, one, one, one, one)  
The one (one, one, one, one, one)  
The one
