Visit "[Christmas Song](#)" on MotoLyrics.com

I need you more than the rain in
springtime
Love you more than the open sea
Feel you most when I'm deep in madness

Like the way you're always with me
I twisted things in a certain way
You understand my every weakness

(CHORUS)

I love you more than a thousand Christmases
I want you more than any gift I can think of
I need you again and again

You should know I'm always watching
You're doing things in a different way
I feel you now cause I'm deep in madness

chorus
