Hey mister music  
With all your allusions  
Your forgone conclusions  
Your grand delusions

Hey mister music  
My name's not honey  
Don't call me dear  
My eyes are up here

I am not your American Dream, your American Dream  
I am not your American Dream, your American Dream

Hey mister music  
The life of the party  
Where everyone's pretty  
And everyone's easy

I am not your American Dream, your American Dream  
I am not your American Dream, your American  
Dreamgirl

Beautiful, wasted  
Surrounded by the world that made us  
Plastic and wanted  
Subscribing to your airbrushed magazines  
Filled with American Dreamgirls

I won't be silenced  
By your small minded validation  
Your silicone creation  
Rock'n'roll masturbation
