

Joydrop "Life On The Sun"

Visit "[Life On The Sun](#)" on MotoLyrics.com

Windless summer, snowless winter
Starless night time, loveless valentine
Days that come and go a sometime ending
Nowhere going flow, I don't pretend to know

Shine on me so bright I can't look back
Trust so deep without condition
The infinite zeroes that follow the one

For all we know there is life on the sun

People come and go that I don't really know
So hurt me and I won't hurt you back
'Cause karma takes care of that

There are losers and there are heroes
And ten times zero is still zero
Still we follow the one
For all we know there could be life on the sun

Windless summer, snowless winter
Starless night time, loveless valentine
