Oh Mandra what have you done to me
Like a flower tastes like a seashell
Lean towards fade into black
Scratch my name into your back
I'm not frightened
This is just how I thought it would be
Move me close I want to be wanted
Take my hand I want to be lost
Grey green eyes it's just like a sunrise
I'm not frightened
This is just how I thought it would be
All my life all in one day
So much time and I still can't forget
So much time and I just can't remember
I want more 'cause it's not over yet
I'm not frightened
This is just how I thought it would be
All my life all in one day
You're a strange one
And I always wanted to
And I do
I do
