It's like a river water fall  
About to drop us away  
Imma take it as it comes  
Just Wash me away  
If you ridin and we wake up on the bottom  
Watch us scream  
It means we earned this hell of a life we got in front of  
us come with me come with us  
Like these people sure to see you'll have to kill me to  
stop me  
Cause

Up until last night when that different blast of wind  
Past decisions crashing thought that I was february  
cold  
Every where I go ass kissin actin like they act different  
Sorry we but we know, mad driven yeah we go  
At a pace that is like an animal  
Lion looking for some food with an attitude  
First come first serve simple minded aptitudes  
Guarded cause they laughed at you  
You walk around mad at who?

Act true adamantly that'll be different  
They wanna act like I'm february cold  
Everywhere I go  
If only they could take a second peer into my soul  
See me cry really feeling every note  
From every melody and poem  
But I only seem to cry when I'm alone  
I never wanna share the pain  
Tho I gotta let it go  
Then I find a way to smile, surely I will let em know  
Cause it feels much better when I'm ridin through the  
city  
With my people here with me  
I don't wanna judge crazy lives I just want you with me  
Smiles all around waiting for it all to hit me
