Way out

I don't wanna way out I don't wanna run  
I don't wanna take back anything I done  
You know your gonna drown if your waiting for the  
heroes to come  
Odds like one six zeroes to one

Verse 1

The echoes of the errors in the hall way of my mind  
Only hurt when I know I didn't try  
They're wishing that they got another chance at  
(chance at)  
That night that they didn't take the chance they had  
But that's never gonna be our song  
No that's never gonna be our song  
The echoes of the errors in the hall way of my mind  
Only hurt when I know I didn't try  
They're wishing that they got another chance at  
(chance at)  
That night that they didn't take the chance they had  
But that's never gonna be our song  
No that's never gonna be our song  
We sing like we act like we speak like we feel like were  
sure that were never gonna leave  
So we work for the sweat for the edge for the chance  
for the light for the night for a chance  
Like we know were gonna leave  
Sing like we act like we speak like we feel like were sure  
that were never gonna leave  
So we work for the sweat for the edge for the chance  
for the light for the night for a chance  
Like we know were gonna leave  
Like we know were gonna leave

## Verse 2

People always tell me boy I think you think to much  
Well I'm lookin at your frown and I don't think that you  
think enough  
All the moves that you made what do they amount to  
What are you about? I'm standing here with out you  
I'll starve before I bow down for some food for from a  
dude who does business like madoff  
I got some buttons that are hard to turn off  
I got a reputation with me says I tend to work hard  
I'll go and make my own way before I twiddle my  
thumbs boyy  
You don't have to tell me to start  
I got my friends with me people keep em close to my  
heart  
My most valued possessions  
They would take a bullet for me block the pain and eat  
it cold  
With out a second thought  
Out on dykeman in manhattan with jeff I learned allotta  
shit  
Pay attention to the books but the knocksll teach you  
other shit  
You reallly gotta feel it to know  
I catch the wind catch the feeling and go  
Spending time at the crazy job with marcus and his  
pops made me strong  
And when the pieces wasn't fittin in right we hadda  
move  
Prenitss took us both in and gave us both a home  
I catch the wind catch the feeling and go  
And when I go then kells is probably getting a call  
I got some things that you only can pay for with your  
time we  
Will live on through the stories that they tell  
And the money and the flash can bite me  
I don't have to buy em bags to make these people like  
me  
If I never met jos then you probably wouldn't know me  
today  
And with everything that john taught me out in mount  
vernon and yonkers  
I aint never going away  
And I never ever ended up meeting sai gon but his boy  
rough taught me how to write songs  
Man I just was a pip squeek then watching weeks go by  
Like the does the pain ever end?
