Surrounded by others
Hate, Love, and Lies
We have to stick together
And believe in you and I

Love will hold us together
It's growing stronger each day
Cause we're living in the real world
And love is here to stay

CHORUS:
Living in the real world
Life is not a dream
Cause it's guesses and choices
That fulfill our destiny

M-8:
Love, don't ever deceive us
Don't burden us with misery
Eyes, don't try to perceive us
Cause we're more, so much more
More than the eyes can see

SOLO

Surrounded by others
Hate, Love, and Lies
We have to stick together
And believe in you and I

Love will hold us together
It's growing stronger each day
Through the years cause we dared to dream
Through the laughter and the tears
