I am one of the paranoid people  
I'd love or hate, but I can't decide  
I relate if you're weak or just unable  
A frozen sun in an acid sky  
Paranoid people  
Paranoid people  
Paranoid people  
Paranoid people

I am one of the paranoid people  
Experimental agent 1475  
Be the star of you're soul imagination

The waters broke now we've come alive

Paranoid people  
Paranoid people  
Paranoid people  
Paranoid people

Rise and trot to the rear of the ride  
I get mine on the inside  
I get mine on the inside  
I get mine on the inside  
I get mine on the inside  
I get mine on the inside
