I heard this song on the radio  
Katy Perry was the artist  
About a slut cheatin' on her boyfriend with a lesbo  
It was so retarded

So I make fun of it  
Just like my friends did  
But then something happened  
I can't get this song out of my head  
And my toes are tappin'

And I heard this song and I liked it  
I can't believe I really don't mind it  
I put this song on my iPod  
I hope my friends don't find it  
Because I know it's awful  
And it's really trash-ay  
It makes the Pussycat Dolls seem class-ay  
And I heard this song and I liked it  
God damn it

Ooo

No it's is not the first time this has occurred  
When enjoying a hit felt so wrong  
I've seen the Baha Men three times in concert  
And still listen to the Thong Song  
Lou Bega, the Macarena  
And that really annoying cell phone frog  
My playlist is like a Where the hell have they been?  
Special on VH1

And I heard this song and I liked it  
I think the beat is really hypnotic  
But I can't listen to the lyrics  
Beacuse they make my ears wanna vomit  
It's playin' in my car  
And I'm rockin'  
As I feel my IQ droppin'  
And I heard this song and I liked it  
Oh shit
