"All The Years"

Visit "[All The Years](#)" on MotoLyrics.com

Through the years we laughed together as one family
Growing wiser through the years with every tear
Through the years enjoying love and life in unity
Building dreams and reaching out to all the world
Yes forever we will stand
With each other hand in hand
I will always be around for you my friend

Through the years, we've been together
Memories of me and you
(Through the years Staying true) for worse or for better
In all the years we've all been through
For whatever comes our way
Every single moment of the day
We will always be as one in joys and tears
Building memories again through all the years
