Ooh hooh, ahh, ahhhh...

It is time to change our ways
Speak a one united phrase
In every song that we sing
In every dream that we dream
Telling it is up to us to decide

All the conflicts in our hearts
Let's forget the way it starts
Let's be together like then
Together hand and hand
For this world can be stronger again

For we were born in love
That's how we came about
The time has come for us
To make our voice as one in sharing
Replace the hate we have with caring
So happy we can be
If we would all agree
And there would be delight
For all the things we see
Let's cherish
The only world we have

All the conflicts in our hearts
Let's forget the way it starts
Let's be together like then
Together hand and hand
For this world can be stronger again

For we were born in love
That's how we came about
The time has come for us
To make our voice as one in sharing
Replace the hate we have with caring
So happy we can be
If we would all agree
And there would be delight
For all the things we see

Let's cherish
The only world we have

Ooh one love is all that we need
Ooh one earth is all that we have
We were given hearts to love
By the heavens up above

Yeah... yeah

Ooh we were born in love
That's how we came about
The time has come for us
To make our voice as one in sharing
Replace the hate we have with caring
So happy we can be
If we would all agree
And there would be delight
For all the things we see
Let's cherish
The only world we have

Ooh we were born in love
That's how we came about
The time has come for us
To make our voice as one in sharing
Replace the hate we have with caring
So happy we can be
If we would all agree
And there would be delight
For all the things we see
Let's cherish
The only world we have

Ooh let's cherish
The only world we have
