Money wrench in my hand  
in my groin a swollen gland  
tonight perform brain surgery  
or some gynecology  
clockwork orange fast becoming  
rampant street gangs overrunning  
after darkness raging war  
what do they keep living for?  
Sex and Violence  
I love to hear you scream in vain  
splattered blood and semen stains  
rape and murder lesson learned  
meaning of life? - Pain and sperm  
prey upon the old and helpless  
reconditioning is useless  
ultra-violent offsprings of gore  
what do they keep living for?  
Sex and Violence  
If you can't eat it or fuck it...  
then kill it!  
Sexual deviation  
Religious desecration  
Civil mutilation  
Violent procreation  
Bleed for me
