Free from it all  
I'm not gonna change till I want to

And I'm free from it all  
I'm not gonna change till I want to

By the way she looked I should've calmed down  
I went too far  
Oh that's all I got to say

By the way she looked I should've calmed down  
I went too far  
Oh that's all I got to say

Free from it all  
I'm not gonna change till I want to  
And I'm free from the world  
Where I built too many roads

By the way she looked I should've calmed down  
I went too far  
Oh that's all I got to say

By the way she looked I should've calmed down  
I went too far  
Oh I went too far
