Virse 1:

I travel a lot just to break off sweat.Cause I know  
I will be everywhere.Were ever you call I'll be  
There.Just to see your pritty face I'll do anything  
For you but what I want right now.

(Chorus)

I wanna relax cause I need to, be for I fall  
Apart.I know I said I'll do anything for you  
But I need to take a break, I need to relax.

Virse 2:

Here we go again just because I wanna take a break  
Now you think I don't love you anymore but I still  
Do love you.So don't think like that cause your my  
Everything it's just that I wanna relax can you let  
Me take a little break for once please baby.

(Chorus)

I wanna relax cause I need to, be for I fall  
Apart.I know I said I'll do anything for you  
But I need to take a break, I need to relax.

I don't wanna break up with you, just because  
I wanna take a break.

I don't wanna break up with you, just because  
I wanna take a break.

I don't wanna break up, break up, break up with  
You.

(Chorus)

I wanna relax cause I need to, be for I fall  
Apart.I know I said I'll do anything for you  
But I need to take a break, I need to relax.

I don't wanna break up with you, just because  
I wanna take a break.
