You know that something inside of you
Still plays a part in what i do, always
I'm here for you
I think that if we were all we had
That's more than most people ever have, anyway
Oh anyway, you can stay here

I know you're still there because you're scared that
you'll lose everybody
I know you're still there because you're scared that
you'll lose everything
I know you're still there because you're scared

I'm here if you're scared to go through
Anything just reach out in front of you, always
Won't you stay near
So close we played it as if we cared
Don't stop now that we're almost there, anyway
Oh i'm here for you

I know you're still there because you're scared that
you'll lose everybody
I know you're still there because you're scared that
you'll lose everything
I know you're still there because you're scared

I know you're still there because you're scared that
you'll lose everybody
I know you're still there because you're scared that
you'll lose everything

I know you're still there because you're scared that
you'll lose everybody
I know you're still there because you're scared that
you'll lose everything

I know you're still there because you're scared that
you'll lose everybody
I know you're still there because you're scared that
you'll lose everything
I know you're still there because you're scared
