Gotcha from the start and to the
end.

Your easy to get to, girl.
You make me feel like your the
only one that revolves around my
world.
You tell me girl to love you alot.

You tell me to get you what you
want when im around you.
Who can blame you for what you
do to me.
Cause your my queen of everything.
Witch I wanna get locked up with
you in a volt.

You get what you want from me it's
so easy.
But what i want from you is hard to get.
It's that simple to see what I want from
you.
I want your simple love, I want your
simple love.
So simple but you girl just don't see it.
You like to be cheap and don't approve,
Don't worry baby it's just that i want your
simple love, that simple, so simple, it's
simple.
so hand over your simple love, simple love,
simple love.

So come on girl don't be a lose leave
hanger.
I just wanna love you all the time of my
life.
The only thing i see is you girl, that is on
my mind your my everything in the whole
wide world.

You tell me to leave it alone, But i won't
stop untill you give me what's mine.
You may not mean alot to me. You may

not be perfect to me.
I'll do anything to make you be with me.

You get what you want from me it's
so easy.
But what i want from you is hard to get.
It's that simple to see what i want from
you.
I want your simple love, I want your
simple love.
So simple but you girl just don't see it.
You like to be cheap and don't approve,
Don't worry baby it's just that i want your
simple love, that simple, so simple, it's
simple.
so hand over your simple love, simple love,
simple love.

You can love me or love me not but I just
want you.
And you know that i want something from
you, girl.
Cause your everything to me and i won't
stop until you are mine.

You get what you want from me it's
so easy.
But what i want from you is hard to get.
It's that simple to see what i want from
you.
I want your simple love, I want your
simple love.
So simple but you girl just don't see it.
You like to be cheap and don't approve,
Don't worry baby it's just that i want your
simple love, that simple, so simple, it's
simple.
so hand over your simple love, simple love,
simple love.
