"Removing The Shadow"

I'm slowly removing the shadow that endangers the
future we have planned
With her gone I'd give you the best in loving well I'm
removing the shadow so you can
It's hard to hurt someone that really loves you
Specially after you've promised them the moon
I know but I've been waiting a long time so if you want
me you've got to tell her soon
Now I'm not complaining cause I love you
And I want to be with you every minute I can
I want to wake up in your arms and not worry
Honey I know how to satisfy a man
Now I know I'm taking too long removing the shadow
But honey no matter what I have to do just put your
trust in me
I love you cause you're kind sweet and understanding
In fact you're everything I wanted her to be
Well if I'm that close to what you're wanting come and
get me
And let removing the shadow be through
I think I've learned how to give you love with
satisfaction
And whatever she didn't know I'll teach you
I'm slowly removing the shadow that endangers the
future we have planned
With her gone I'd give you the best in loving well I'm
removing the shadow so you can
