[Verse:]

Under the stars the shines one light
That always glistens, always listens to the whispers of
the night
When skies are black, full of despair
I asked the sun to tell the moon that two of us are there

[Bridge:]

The afterglow that's down below
Is when I see your smile
And in your eyes, true love assigns
Forever is a word that cries

[Chorus:]

That I belong to you
That endless nights are far away
And I love you
Could never never never
And I run into
I see you don't look down and now I feel the truth

[Verse:]

We overlooked as ocean deep
But now this river that we're swimming through is
promises we keep
The suns comes up, there is no heat
'Cause what we're feeling is revealing, I'll be damned

So let it burn, it takes its turn
One we never would allow
There is no heart that chance will break
Nothing else could ever stop us now

[Chorus:]

'Cause I belong to you
That endless nights are far away
And I love you
Could never never never
And I run into
I see you don't look down and now I feel the truth
I belong to you

[Bridge:]

The afterglow that's down below
Is when I see your smile
And in your eyes, true love assigns
Forever is a word that cries

[Chorus:]

That I belong to you
That endless nights are far away
And I love you
Could never never never
And I run into
I see you don't look down and now I feel the truth
I belong to you
