I wanna be your love angel, love angel

Sit here on the sofa, boy
Put your drink on this coaster, boy
And just sit back and relax your mind
'Cause you're about to have a good time

'Cause you been working hard all day
And now it's time to get away
Turn your phones and two-ways off
I'll be the only one you need to call

I can't wait to give you all of this lovin'
'Cause baby, you deserve it
You give me back the real kissin' and huggin'
Boy, tonight I'll be your

Love angel, a touch of heaven from me
Love angel, my love is all you need
Be your love angel, you can depend on me
Love angel, I'm gonna be your love angel

First we'll get into the showers, boy
We'll make love for hours, boy
Tonight you're gonna be all mine
Make the greatest love of all times
And you won't get enough of my heaven's touch

I can't wait to give you all this lovin'
I can't wait
You give me back the real kissin' and huggin'
I wanna be your

Love angel, a touch of heaven from me
Love angel, boy I'm all you need
Be your love angel, you can depend on me
Love angel, I'm gonna be your love angel

Can you imagine, boy, you and me going above the
sky?
Physical attraction, follow me, I'm gonna be your guide
Chain reaction once we start, boy, you know we can't

stop
You and me climaxin', we'll be taking this love straight
to the top

Love angel, a touch of heaven from me
Love angel, love angel, boy
Be your love angel, you can depend on me
Love angel, I'm gonna be your love angel

Love angel, a touch of heaven from me
Love angel
Be your love angel, you can depend on me
Love angel, I'm gonna be your love angel

Hello ladies, from around the way
I thought I heard somebody call my name
I'm here to take you out this pourin' rain
And cuddle you just like a small cafe

Soothe your body and put your mind at rest
You don't believe, then ask JS
From the sofa, to the bed, to the floor
I'm 'bout to take you straight through heaven's door

Love angel, a touch of heaven from me
Love angel, gonna keep you comin' boy, all night long
Be your love angel, you can depend on me
Love angel, I'm gonna be your love angel

Love angel, a touch of heaven from me
Love angel
Be your love angel, you can depend on me
Love angel, I'm gonna be your love angel
