Someone, someone (I got)
Someone, someone (for me, I found)
Someone someone

Used to wait up for you till like five in the morning
Robe on, watching re-runs and yawning
Wasn't calling, you didn't care
You knew I'd always be there, I
Fooled myself like you would change
Finding numbers in the glove of the range
But I, didn't complain, I
Loved you the same
But I got a surprise for you today
Baby because

Someone's been sleeping in my bed
Someone's been kissing my (ooooh)
'Cause you rather go out instead
Someone, someone, someone, someone (someone to
love me baby)

Someone's been rocking my back
Someone's been asking me
"You like that?"
Just like you did when we first met
Someone, someone, someone, someone, someone,
someone

Now baby
You used to introduce me to the finer thangs
The passion that we shared was straight off the chain
Thought I would never feel that way again
Convinced myself I was to blame
(He) touches me like you used to do
(And he) loves me like you used to do
(Baby) he wants to replace you and I gotta do what I
gotta do
(I'm sorry)

Someone's been sleeping in my bed
Someone's been kissing my (oooh)
'Cause you rather go out instead

Someone, someone, someone, someone (someone,
someone)
(You used to love me everyday)

Someone's been sleeping in my bed
Someone's been kissing my (oooh)
'Cause you rather go out instead
Someone, someone, someone, someone (someone,
someone)
(You used to love me everyday)

Someone's been sleeping in my bed
Someone's been kissing my (oooh)
'Cause you rather go out instead
Someone, someone, someone, someone (someone,
someone)
(You used to love me everyday)

Someone's been rocking my back
Someone's been asking me
"You like that?"
Just like you did when we first met (I'm moving on,
without you)
Someone, (he does the things you used to) someone,
someone, someone, someone, someone

Someone was at home lonely at night
Someone was out all the time
Was the last thing on your mind but I found someone
so its alright (its alright)

Someone's been sleeping in my bed
Someone's been kissing my (ooooh)
'Cause you rather go out instead
Someone, someone, someone, someone (someone to
love me baby)
