

## **JS (Johnson Sisters) "Handle Your Business"**

Visit "[Handle Your Business](#)" on MotoLyrics.com

I really enjoy you, oh yeah  
Just hanging out doing things  
I got a lot of love for you  
No games ain't nothing changed

Now why you wanna call my cell  
Talking 'bout love me or leave me alone  
Girl you knew from the ghetto  
So whatcha leave this message for

It's been a while  
And this ain't my style  
If it's gonna be, then let me know  
If not then let me go right now

If you want my love  
Baby handle your business  
If it's not about us  
There's no sense in chilling, chilling

If I'm what you want  
Let's start billing  
'Cause whenever your around  
I get this feeling, feeling

Baby you must not know what love means  
'Cause if you did you wouldn't do these things  
Love ain't always getting in my jeans  
But that's all you wanna do it seems

What about deep conversation?  
Sharing secrets, being there for one another when the  
other needs it  
You say you love me and I don't believe it  
That's why I have to call and say

It's been a while  
And this ain't my style  
If it's gonna be, then let me know  
If not then let me go right now

If you want my love

Baby handle your business  
If it's not about us  
There's no sense in chilling, chilling

If I'm what you want  
Let's start billing  
'Cause whenever your around  
I get this feeling, feeling

Ronald make up your mind  
Oh, candy say can I take my time  
Come on boy your wasting time  
Girl I want you in my life baby

Right now boy you got to choose  
Oh, you got me so confused  
I love you, I love you too girl  
If that's true you know what you gotta do

If you want my love  
Baby handle your business  
If it's not about us  
There's no sense in chilling, chilling

If I'm what you want  
Let's start billing  
'Cause whenever your around  
I get this feeling, feeling

If you want my love  
Baby handle your business  
If it's not about us  
There's no sense in chilling, chilling

If I'm what you want  
Let's start billing  
'Cause whenever your around  
I get this feeling, feeling

Love you baby, you know I love you baby  
And you know I love you baby  
Oh yeah, you're driving me crazy  
You're driving me crazy

No no no no, no no no no  
Handle your business girl
