I found love in a bottle of Rum, love me back and I'll
give you some,
We've grown tired of making the same mistakes.

I found love in a bottle of Rum, love me back and I'll
give you some,
We've grown tired of making the same mistakes.

She's got love oh my God she's got love.

She's a lovely girl, but she ruins my world.
Now I dont think because it gets me down,
but I will drink when Candy's around.

You can be the sun that refuses me light,
And I'll be the moon to afraid to shine.

She's got love oh my God she's got love.

She's a lovely girl, but she ruins my world.
Now I dont think because it gets me down,
but I will drink when Candy's around.

I found love in a bottle of Rum, love me back and I'll
give you some,
We've grown tired of making the same mistakes.
I found love in a bottle of Rum, love me back and I'll
give you some,
We've grown tired of making the same mistakes.
